2021**

Infosheet for participants

The Remembrance Tour in Vienna is part of the project “**nEures - Nonviolent European Resistance**” that aims to remember the atrocities of the Nazi-fascist regime and the forms of non-violent resistance that took place against it, e.g. individual/collective stories of solidarity, support to politically and racially persecuted, fleeing soldiers and other war victims; the role of women, clandestine press, peasants’ and workers’ struggles, resistance of Jews and others persecuted in concentration camps; the role of teachers, intellectuals and religious people. With this remembrance tour, we want to trace history in everyday life and understand political developments together with you. You can find out more about the **nEures** project here: <https://www.nonviolentresistance.eu/>

Bus

You might consider taking a bus. Common international bus companies with connections all over Europe are Flixbus (<http://www.meinfernbus.at>) and Eurolines (<http://www.eurolines.com>).

Bike and
Hitchhike

Take your time! SCI projects are a great way to start experimenting with the way we travel. Therefore we encourage you to go crazy and adventurous. Hitchhike (<http://hitchwiki.org>) is a Wiki project which gives you information about how to hitchhike, where to go, safety tips etc. If you want to take the bike to the seminar, we recommend Warm showers (<https://www.warmshowers.org>), which is a couch surfing project specifically for people making bike tours.

Be green! We encourage you not to take the plane, even if this takes more time and might take extra effort. Of course, we know it is not always possible depending on where you are travelling, the time your job / everyday life gives you etc., however: Planes are massively responsible for climate change and through our projects SCI would like to contribute to a more sustainable planet, not to a less sustainable one. Read more about your ecological footprint here: <http://footprint.wwf.org.uk> Read more about the environmental impact of flying on Wikipedia: https://en.wikipedia.org/wiki/Environmental_impact_of_aviation

Plane

Vienna has an international airport with connections all over the world. You might also look into travelling to the Bratislava airport, which is very close to the Vienna airport and has flights by “low cost” airlines such as Ryanair.
